The meeting started at 4.45 pm. Secretary Mr. Francis welcomed everyone. Since it was the first executive ^{committee} meeting after election, the members introduced each other. This was followed by evaluation of last alumni day.

There was a discussion with regard to changing the annual alumni gettogether day from 26th January to 2nd Saturday of January, as there was an opinion that many alumni who are working in government sector, it is compulsory to attend flag hoisting. They find it difficult to reach for meetings especially those who are out of Trivandrum. But it is decided to put this as an agenda in the next annual general body meeting, since for a long time the date 26th January has gone into the mind of all.

Treasurer informed about the scholarship of Rs. 5000/- given to a student, (Arya Gopika) who performed well in psychiatric social work. Also Shields were given to 4 students from Alumni Benevolent fund.

There was a discussion regarding how to use the balance fund of seniors. But there was no decision as such.

Dr. G. C. Gopale Pillai asked about the room that was allotted for alumni. Though

it was inaugurated during jubilee year, later it is absorbed by the college, as we started one more new course. Fr. Sabu P Thomas said that there is a provision for alumni room in the new proposed administrative building.

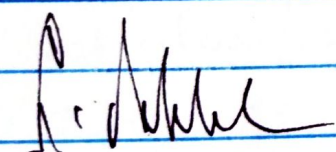

This was followed by discussion on how to use alumni for student's development. The major suggestions are .

- Intellectual input - happens at department wise and also through value education sessions of Tuesdays.
- mentoring - This has been started last year. Shri L Radhakrishnan said that the number of request for mentoring for him was high. So we need to find out the alumni, who are available & willing to give service.
- Sharing of experience by alumni - we focus for at least one program in a month.
- For major functions in vte

alumni who are interested.

Seminar: There was a ~~decision~~^{suggestion} to conduct one day Seminar on "Recent developments in Labour law". The tentative date is 6th Oct. 2017. The suggested auditorium is KITTS auditorium + resource person adv. Anil Kharyanan. Dr. Prakash Pillai has agreed to contact him. It is also suggested to invite Shri T. P. Ramakrishnam, minister for labour + ex cise to inaugurate the Seminar.

The Alumni Executive Committee 2018 of the Loyola College of Social Sciences held its meeting at the Principal's office on 18th of December, 2018, from 03:30pm to 05:30pm. The meeting started with a silent prayer. Leave of absence was granted to those EC members who could not attend this meeting.

Before going into the agenda, the President permitted some of the members to raise their concerns about the dilemma in the Association in organizing activities in a more meaningful manner. He pointed out that there is a need to look through the minutes and reports of the past couple of years, take new suggestions and create a new Action Plan for the Association. Dr. G. C Gopalapillai opined that there should be clarity on the role of the Association. The minutes of each meeting must be recorded and forwarded to the President within a reasonable time for approval. Following that, it is to be circulated to all executive committee members through email or through Whatsapp. Action taken on each decision should be discussed before starting the fresh agenda of the EC.

Another concern expressed by the members was about the absence of communication regarding the major events of the college to the Alumni Association. The President suggested to create a separate e-mail group and Whatsapp group for the Executive Committee members and to inform them promptly regarding the major events at the college in advance. One example pointed out was the recent Golden Jubilee Lecture by Dr. Shashi Tharoor.

The Principal, Dr. Saji P Jacob responded that since that programme was arranged at short notice, there was no time to inform well in advance. But when the brochure was ready, it was circulated immediately in the alumni Whatsapp groups. He assured that the college will take all possible care to address such issues in future. He sought the advice of the EC on how to create a working mechanism to address the issues affecting the functionality of the Association.

The President suggested that a study could be made on how good alumni associations work in other institutions. The Principal explained that since the students are packed with programmes, the parents have begun calling up the college, requesting reduction of the workload. He also said that since Ms Francina, the Alumni Association Secretary, is new to this function, she needs the help of senior alumni members who can facilitate better networking.

Dr. G. C Gopalapillai suggested that the Association Secretary may maintain regular contact with the Association members as some of the elder Alumni members feel alienated from the activities of the college. The Principal reiterated the constraints faced by the college after the introduction of semester system. However, many alumni members come to the campus and interact with students. The members appreciated this,

but desired prior information to the Executive Committee about such events. The alumni members could supplement the academic curriculum especially using some prominent alumni, Dr Gopala Pillai and Mr MS Sreekumar mentioned.

The President suggested resuming the mentoring of students by alumni. Dr. Prakash Pillai said that though this was started with HR students, due to time constraints many students were not able to benefit fully from their mentors. He said that since Mr. Radhakrishnan had been a frequent visitor to the campus, many students only knew him and opted for him. He therefore had found it a bit difficult to spend more time with each of them.

To enhance the relevance of alumni interventions and reduce the overload, a list of the programmes needed by students and faculty from the Alumni needs to be prepared and evaluated on the basis of felt requirements to finalise the kind of programs to be included or excluded in the Action Plan for the Association. The Vice President Mr M.S. Sreekumar and Dr. Gopala Pillai suggested a need-assessment of the students to find out how the Alumni can contribute with their respective areas of expertise. As a start, the invitee student representatives present were asked their opinions. These were the students' opinions / suggestions:

- The programmes conducted in the college though seeming to be excessive, are actually useful to the students.
- Some students themselves seem to have lost track of their needs and goals and they need to be reminded of those. The requirement is in providing them motivation to excel and guiding in preparation towards securing a good job. We need classes relating to our curriculum with equal share of motivational and personality development coaching from experienced alumni. – *Brilliant Maria Anto (3rd sem. MSW)*
- When the majority of alumni speak from the HR view point, students of other departments question its relevance and benefit for them.
- 60% importance should be given to curriculum based inputs and 40% for other coaching/ guidance. – *Nanma Manoj. (3rd sem. MAHRM)*
- The students do require equal share of motivation and curriculum. More inputs like spoken English, personality development, etc. are needed – *Archana Louis (3rd sem. MSW).*

The next agenda of the meeting was taken viz. planning for the Alumni Day.

Information regarding the new date (2nd Saturday of January) was passed on through the Whatsapp groups of the batches. It was suggested to send it again. Students shall be divided and will be assigned the duty of inviting the members over the phone batch

wise. Ms. Francina said that the contact numbers of Golden Jubilee batch are unavailable and have to be obtained.

Registration: It was decided that for the employed, it would be Rs. 400/- per member + Rs. 100/- for each accompanying member and Rs. 100/- for the members who have not found regular employment. The day's outing to be enquired and organised by the Secretary and members of the EC working in the College. Cultural Programmes would be as usual with students plus the interested members from the alumni. Food would be arranged as done in previous years and current feasibility.

It was noted that no programme could be conducted as a fund-raising activity for the Association. So, as per the plan for scholarship/ award for deserving students, if Rs. 5000, the current amount is to be paid, it may be better to find some sources.

For the JAAK meeting at Kanjirappally, Ms. Francina P. X. was chosen to represent the Association.

Regarding buying a new mobile phone for the Alumni Association, it was suggested to port the sim card with the same number as before to Jio for better offers and a mobile hand-set is usually provided at low cost by them.

It was decided that there would be the observation of a silent condolence moment for the deceased alumni, before the meeting.

As regards the JAAI fund sanction for the residential programme conducted on 2018 June 29th and 30th, further details need to be enquired into for which the Secretary may contact Mr. Pradeep Monvila.

Dr. Prakash Pillai informed the Committee that the subscription amount of Rs.1500/- for JAAI has been made. This was ratified.

The meeting came to a close at 5.30 p.m.

The second meeting of the Alumni Executive Committee 2019 of Loyola College of Social Sciences began at 11:05 a.m. with a silent prayer. Out of the 16 members including the Patron, 12 were present. Mr. Santhoshkumar JR, Mr. Dileepkumar S, Ms. Lejeena K. H and Ms. Asha Suresh informed their inconvenience to attend the meeting. Dr. Francina. P. X, the secretary of the Alumni Executive Committee welcomed everyone.

Mr. P. N. Sreekumar IRS, the President of the Executive Committee, gave the Presidential remarks. He expressed his happiness of being able to return to the college after many years and said that "the message of any alumni is to receive and to pay back." He said that his first priority is to reach all the alumni. He remarked that the real beneficiaries of the Alumni Associations are the students and they also must participate in decision making. The secretary read the minutes of the previous general body meeting which was held on 12th January, 2019.

The committee discussed on the effectiveness of changing the date of the annual meeting from 26th January to the second Saturday of January. The members opined that there was no significant increase in the number of participants than the previous years. It was reported by one of the members that many alumni expressed their discomfort with changing the date. Hence, there arose a suggestion of changing the date again to the 26th of January. The committee discussed on calling up a general body meeting as the Bylaw insists the same for making decision on changing the date of the annual meeting. But then it was pointed out that the previous decision had a resolution that "the date is changed on an experimental basis." Hence, the committee decided that the date shall be changed and it will be ratified in the next annual general body meeting.

The committee discussed about the problem of being unable to contact all the alumni. The members suggested that someone should take the initiative of finding out the contact details of all the alumni. One person each from every batch should be given the responsibility of bringing the group together. It was decided that all the members of the executive committee should prepare an Excel sheet of the contact details of all the alumni that they have with them and send it to the Secretary before 15th February 2019. Secretary will give the list of alumni to the executive members in excel format

One of the committee members suggested that some people find it difficult to attend the annual meeting because they are unemployed due to various reasons and they find the general body meeting becoming a dais for the exhibition of one's status. It was also opined by the other members that people who attend the meeting fail to relate to others and that the meeting often becomes dragging because of the formal programme schedule. So much of time is used up by the speeches and people do not get enough time to talk to each other. It was decided that the programme shall be rescheduled in another executive committee meeting.

There arose a discussion regarding the amendment of the Bylaw and it was found unable to be done because the amendment requires a voting in the general body. It was brought into notice of the members that the association has a heavy backlog of procedures to be completed and it was suggested that the existing registration shall be cancelled and done again. There can be inclusions like inclusion of Patron, Management representative, date of effect etc. Mr. Ram Mahesh, Prof. George Mathew, President have taken responsibility of enquiring the details regarding the requirements for a new registration and secretary also will assist them.

A review of the previous year's income and expenditure was given by Dr. Prakash Pillai, the Treasurer of the Executive committee. The Association has a total balance of Rs.3,34,856 including the fixed deposits.

The expectation of staff and students from Alumni Association was discussed. The members suggested that the services like experience sharing, mentoring and placement orientation should be provided for the students. It was suggested that scientific methods should be used for understanding the aptitude of each student, the strengths and weakness of each student should be analyzed and the weakness of each student should be individually addressed. Group mentoring also should be given by bringing together the students with similar aptitudes and aspirations. Mr. Balagopal Nair, Mr. Ram Mahesh and Mr. Baby Prabhakar have taken the responsibility of drafting a plan for mentoring including the basic concepts and initial kick-off before 20th February 2019.

The need of a common communication platform for the alumni networking was discussed. It was suggested that the flaws in the official website of the college shall be corrected and the link for the alumni shall be used for communications. The creation of a new website was also suggested. It was decided that a new website shall be created later on with the help of technical assistance. The committee also decided to conduct a short meeting of the alumni members on 2nd March, 2019 at 04:00 p.m. for sharing the updates.

The need for establishing a placement cell was discussed. It was suggested that job fairs should be conducted in the campus by inviting employers. Prof. Dr. Mathew George and Dr. Prakash Pillai were given the responsibility of creating a concrete plan regarding this. It was also suggested that news related to job opportunities should be regularly updated to the placement link in the official website and all the members should be given the access to update information.

The committee decided to carry out regular interactions between students and alumni members after the need assessment of the students is done. The Joint Secretary along with Principal was given the responsibility of conducting the need assessment.

The members suggested that the houses of the alumni members should be visited on the days when some social events occur in their family. It was also suggested that the Alumni Association should present a wreath on the occasion of the demise of the dear ones.

It is also decided to hold next meeting on 2nd March 2019 at 4 p.m. As per the request of previous executive committee, it is decided to have an interaction with them on same day from 4 to 4.30 p.m.

The principal of the college appreciated the vibrancy of the executive committee members and reminded that this should be continued. The Alumni Executive Committee dispersed by 01:00 p.m.

A single account - **Alumni Benevolent Fund** was created by the Management to accumulate all the donations for scholarships. The interest is generated as scholarships continuously every year. This helps sustain the scholarships even after the donated amounts might have had been extinguished. Supporting Scholarship is provided to students who require aid but do not fit into the scholarship criteria.

The Scholarship donations have not come into the college via the Alumni. The college management has created a separate account to avoid confusion. The college has all the process accounted, but the college feedback needs to be formally communicated with the donors yearly, to assure them the difference created with their contribution. Therefore, the management needs to update the donors on the distribution of the scholarships rightfully.

7. Congratulating meeting for Loyola family member Fr. M. K. George SJ is scheduled on June 14th 2019. The next executive meeting would be on a working day, for preparation discussions.

8. The Alumni Association has bought a mobile phone and a new SIM for its purpose. The phone no: +91 6238 800 946.

The Next Alumni Management Committee Meeting is scheduled for June 6th, Thursday. The meeting concluded happily with a vote of Thanks from the Principal.

Minutes

The meeting began with a Silent Prayer by 04:20 pm and the Secretary Dr. Francina P. X. welcomed the group without much formality.

The President addressed the meeting putting forward all the issues concerning the Alumni Managing committee as listed in the Agenda. He especially reminded that the initial spark of the Managing committee should not diminish as trend suggested. About the La Compass Mentoring program and the suggestions that followed its stead he said Learning is nothing but behaviour modification; Learning the difference between mentoring approach and other teaching/training is important to identify how the process can be implemented as planned and be brought to fruit.

The Secretary Dr. Francina read out the Minutes of the last Managing committee meeting held on 11th June 2019 which was signed by the President.

176

The Principal Dr. Saji replied with the situations and proceedings within the college. The questions put up were on the progress of the website designing, the implementation of La Compass, the functioning of the Alumni contacts, the student response, and further plans. Two months have passed since the opening of the Academic Year, and the college is managing 3 full time batches for the first time in its history, informed the principal and secretary. They informed the committee, the pressure over the Management in maintaining the three academic batches and the demands of completing portions for the 2nd semester students facing their Semester exams with the premature semester of just 3 months. The IQAC work having been pending for all the years had been a load that has been under work.

As for the website construction, there was a little delay from the developers in sending the first design which was sent in by the 15th of July, 3 months after the proposal was accepted. But the generation of data from various departments is still a challenge in the given contexts, explained the staff.

Dr. Mathew G. enquired of the updates regarding the basic requirement of the students who showed interest in the La Compass programme. The statistics were earlier presented by Mr. BalaGopal and inculcating the right kind of programmes to mentor the students. The challenge was, one major part of the students who had registered their needs are almost at the door to leave campus and the other part of the existing population is yet to be introduced into the program.

The type of 'coaching' or 'mentoring' required was also yet to be properly determined. The launching of the programme and its continuation did not happen in the same vigour as finding professional experts from the alumni for the required services was a greater challenge due to poor network maintenance.

The NAAC work had a great backlog which is still pending on 3 AQA reports. One of the faculty members have been relieved of teaching and exclusively been assigned the IQAC work resulting in a 70% of work for each been completed. Now the AQAR portals have been closed down and the management is looking for ways of handling the situation.

Dr. Mathew mentioned about the SAAC - State Assessment and Accreditation Council and the requirement of meeting its evaluation. Dr. Saji replied that it was assured orally that the NAAC colleges do not require the SAAC evaluation.

2.5 NAAC grade eligible for the challenge category fund is far below the college grades, and since any college having a grade above 3.5 is considered autonomous, the college is devoid of any aiding funds from the UGC.

In future, the University is going to be split into two- Teaching University and Research University. Colleges are going to be removed of Affiliation system and be made autonomous. Within 10years, the colleges are going to be able to grant degrees to students on the college authority; the committee shared a piece of information.

La Compass Updates

Executive Members Mr. Balagopal and Mr. Ram Mahesh were sought to update on the progress, but had informed of critical hold up at office and inability to attend the committee.

Mentoring - Long term and Coaching - short term.

Mr Sreekumar asked if the system could be integrated into the department functioning. Dr. Mathew enquired if the proper statistics of the students were available. It was prepared by Mr. Balagopal efficiently and presented.

The group discussed the challenges such as the student dropouts in the programs and who is to conduct the mentoring and their efficiency.

The Principal suggested hosting a package program for the objectives set in the La Compass, by professional teams.

University fees and faculty cannot be depended for this purpose. Private teams that will be costly but will have a perfectly laid out syllabus and package will definitely generate positive feedback.

This activity is to be initiated urgently by La Compass.

The Principal asked the committee of the enquiry of students on the opportunity of a guidance on UN based careers.

Mr. Job Zachariah was suggested, the UNICEF South India Coordinator.

Mr. Kannan isuggested Mr. Murali Thummarakudi who did an article on the careers.

Dr. Francina shared the experience of Meenu and Sajin the final Semester students, speaking to Mr. Joe John George.

Fr. Sunny enquired of the interest in UN; the group informed of the heavily paid work, the pension, the assured life, and specialisation and expertise that a professional in the Organisation gets established into.

Dr. Mathews suggested treating the outgoing batch on the final day of their exams to amiably integrate them into the alumni. But the feasibility, and utility was examined and outlawed.

Dr. Mathew George has informed that 1977-79 batch who celebrated their 40th Alumni Anniversary have collected a fund for chairs for the college as per a feedback during their gathering. It is suggested that the batch contact the concerned persons.

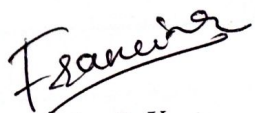

Dr. Mathew George also put forward the proposal of honoring the 4 eminent professors who passed from the history of the college as Memorial Lectures:-

Fr. Muricken Memorial Lecture
Fr. Puthenkulam Memorial Lecture
Prof. Mariamma Joseph Memorial Lecture and
Prof. Gopalakrishnan Nair

The first in the initiative was suggested by Mr. Santhosh Kumar encouraging Dr. Mathew George to organise from outside the college, to ensure participation and the resource person. The Director assured that the college will do what is possible from within for the Lecture. Using the existing fund of the Alumni was under debate and still discussed.

The committee concluded around 05:30pm, with a vote of Thanks by the Director and Principal of the College Dr. Saji P. Jacob.

The meeting began with a silent prayer at 05:15 pm. The Secretary, Dr. Francina P. X. welcomed the members whole heartedly for attending the meeting in short notice. She observed that the number of members for the meeting has increased as it is online.

This was followed by the presidential remarks and president, Sri. P N Srikumar IRS, talked about the crisis we have due to Covid-19, and the survival issues the whole world is facing. We as Loyolites, with our values may extend our whole hearted support.

Fr. Sunny, the patron briefed about the activities the Jesuit communities have done. He also informed about the planning meeting some of the members attended, in which JAAK members have asked Loyola to coordinate the relief work, as we are centred in the capital city and the activities planned are for coastal communities. Rather than doing anything individually, we do it collectively as Loyola Institutions. Since there are representatives for us in Poonthura, Poovar and Anjuthengu we will collaborate with them. It is decided that we use the account which was opened early in the name of principal and Bursar for Relief for this purpose. Calicut and Kannur would be doing their activities in their respective areas and other institutions will collaborate together and Loyola Institutions will do the activities under the leadership of Fr. Sunny Kunnepally SJ, the patron. Fr. Sunny also explained how the distribution would be done with the help of Jesuit communities in coastal areas.

Fr. Sunny also requested that we voluntarily promote and ask our friends and well-wishers to contribute. It is also decided to prepare a request in the name of Patron, director, president and secretary and Dr. Francina would circulate the same messages to different whatsapp groups. It is also decided to distribute the food kits before Onam, as we need to wait for money to come into account.

Then there was a discussion wrt to new Education Policy and the president asked the principal and the vice-principal to brief about the challenges the new education policy has brought. Principal explained that there is a plan for an administrative block and the permission for the same is under the process. We are the final process of getting permission from Corporation of Trivandrum and we hope to get environment and fire clearance shortly. There are also plans for applying for new courses and the management along with principal has met the VC wrt to this.

Prof TSN Pillai sir memorial activities – Dr. Saji, Mr. PN Sreekumar, Fr. Sabu and Fr. Renjith visited Pillai sir's family. They have offered Rs. 100000/- (one lakh), and the president feels that the amount is not sufficient to constitute an IR award and lectures etc.

They do not have any problem to publish the book of research that he has written. Only thing they need to be informed about the activities we do as part of memorial. Though there was suggestion from Prof. Mathew to have a memorial lecture on the 6th month. But the director opined that because of the Covid – 19, a get together is not possible at the moment. We will consider the situation on the first death anniversary and plan accordingly. Mr. Baby Prabhakar opined that we should go beyond the purview of Loyola and constitute an award in Management and Social Work sector, that recognize the contributions of persons who has contributed in the field of Management, Social Work etc. He also said that there are persons who are ready to contribute to this endeavor from outside even financially. There was a suggestion to raise the fund at the alumni level. Dr. Saji said that since we are giving a request for relief fund now, let us wait for 6 months. We will have a detailed meeting about the same in the next meeting.

There was a suggestion to conduct a webinar, on the completion of 3rd month of Prof. TSN Pillai, on a relevant topic as it is cost-effective. It is also suggested to invite a prominent resource person in the area of IR. President opined that there is a some disharmony and disconnect between HR and IR. There is even the absence of good trade union leaders. Dr. Prakash said that they also recognize the same and in the new course that is being designed there are two specializations namely IR and HR. We can have a different meeting for Webinar too. There was also suggestion to have a comfortable time to ensure the participation of all in the webinar by Ms. Balamanju.

There was a suggestion to give money instead of food kits. Ms. Balamanju said that there is a need for medical assistance. Mr. Kannan said that it is better to understand the need of the community and do it as he has seen that dumping of certain goods are found wasted. Fr. Sabu informed that in the previous distributions we have done, we gave both in cash and kind. But since the JAAK,

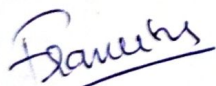

has decided to distribute the food kit, we go by their decision this time and we may think in future. We may also suggest LOBA to conduct a medical camp, if required.

Evaluation of previous activities

Regarding website, the work is affected with lock down. This time, all the application process is through website (online). There is a hike in the number of applications. There are lot of uncertainties with regard to admissions. We hope to complete the work of the website shortly and there are lot of limitations at the moment for the completion of work.

With regard to registration, Dr. Prakash said that they managed to get the accounts till 2013. Till 2010, we generate the account from the pass book. We also collected the details of the statement of account till 2007. Mr. Ram Mahesh informed that we may make statements of accounts from the available documents. He will hand over the accounts to his friend and get it done at the earliest. Once the accounts is cleared, the registration department will give renewed registration. We need to pay certain fee for this.

Presentation of minutes and approval of the same

The meeting began with a silent prayer at 5.30pm. Dr. Francina P X welcomed the members for the meeting. She said that it was a pleasant experience to join with the JAAK alumni team for packing of food kits for Onam to be distributed to the coastal areas. This was followed by reading of minutes of previous meeting by secretary. And the minutes were passed with a small correction. With regard to the building permission, Dr. Saji P Jacob informed that they were able to get fire clearance certificate and there is no need for environment clearance. The permit fee is also being paid at the Trivandrum corporation Office and we expect to receive the permission shortly. Mr. Sreekumar also mentioned that contribution from outside will also be received for the building and names of the substantial contributors can be given. Fr. Sunny said about the importance of the role of Alumni committee in contribution and initiation for the collection to the fund from different batches for the construction. Ms. Legeena, who got transfer to Thiruvananthapuram central office (Dept. of women and child) was welcomed to the meeting by the members.

Presidential remarks

In his presidential address Mr. P N Sreekumar mentioned about the relief activity that have done in collaboration with JAAK during this Pandemic and it was a great gesture of concern for the poor. He also thanked the members who participated and also Fr. Sunny who led the endeavor. He evaluated the programme as a great success. And he also added that as the term of managing committee is about to end we have to complete some planned activities. He added that updated data

bank is one of the achievements and we need to include more people in the whatsapp groups. There was also suggestion to add the passing out batch (2018-2020). And for the registration, Mr. Ram Mahesh and Dr. Prakash Pillai, would be following up the matters further required for the registration. He, once again mentioned about the successful activities that have done so far on behalf of Alumni association.

Report on Relief to the people in the coastal belt

Fr. Sunny Presented the consolidated report on relief activity and amount that could collect. We could collect 2,74,155/- (Two lakh Seventy Four Thousand One hundred and Fifty Five only) and we distributed 400 food kits, worth Rs. 750/- each. As the shopkeepers were not willing to sort-out and pack the kit due to onam season, we had to purchase the provisions in bulk and pack it. We also brought vegetables from wholesale market and that too was included in the kit. The total expenditure was 3,24,000/- (Three lakh Twenty Four Thousand only). The deficit of Rs.49485/- was met by Jesuit community. We have distributed the food kits to 400 families in Anjuthengu. Poor people from the area regardless of their caste and creed are benefited from the programme. He also mentioned that it was a great and meaningful activity from the side of Alumni. And at the time he said that the Covid is still going on and there is a need to do continue to help the people in the same manner in another areas in our own way and in our own groups. Dr. Saji P Jacob and others supported the decision and said that we have to do again in the group joining Alumni and College finding other areas as for students it would be learning experience. But the date of taking up would be discussed later, since the contribution from the same person will be difficult when we do it without a gap. Fr. Sunny also discussed that the contribution from the side of Alumni will not be enough and need to promote widely among people to take up the action including students, staff members, batches etc. Prof. Mathew George enquired whether there was contribution of St. Xavier's College for the relief activity during the Covid situation. Fr. Sunny mentioned that they also contributed to the fund and they too have distributed relief fund in their own groups.

Membership drive

There was also suggestion to add the passing out batch (2018-2020). And we will try to add and update the membership by contacting at least one person from each batch.

Website

Dr. Saji P Jacob informed that the Website developer was stuck at Kannur due to Covid. The pending works are being sent to the person and also the team have created an E-mail group for the discussion on the status, progress of the work etc. It is found that since we are reaching final stages of the website work, it is more time consuming and there is delay in completion of tasks. It is suggested that we could set a deadline of one month, so that we would be able to complete the work and launch the full-fledged website on 26th January 2020 on alumni gathering day.

Registration

Mr. Ram Mahesh informed about the work done so far and the difficulties they face due to lock down and Covid to get the registration renewals. Dr. Prakash and Mr. Ram Mahesh will do the follow up work and get the registration at the earliest.

New administrative Building

Patron informed that they would like to lay the foundation stone on 27th September, as it is Foundation Day of the Society of Jesus, if we get permission from the Corporation before 27th. There was also discussion on the contribution for building the administrative block. The estimation was Rs. 6.5 crores (2018 price level). Now it must have increased. Patron requested all the help from Alumni members. Dr. Saji P Jacob suggested that it would be effective if select one representative from each batch and collect the contribution from individuals through them. For this, we need to develop a draft and follow up. Another opinion was through personal contacts, also we can collect money. Whatever small or big amount the alumni is able to contribute is welcomed. There was a suggestion that we contact certain influential personalities who are willing to collaborate with Loyola, so identifying them and coordinate their batches though them also would be effective. There was also a suggestion to form a committee for this purpose. Another suggestion was to meet the alumni members those in Trivandrum in person and request them for help. Dr. Saji P Jacob also mentioned about the struggles we

gone through to get the permit for the construction as they asked 10lakh fees in the Corporation. But we could succeed in that paying 1.61 lakh.

There was a suggestion to put the names of substantial contributors in the building. The batches may be encouraged to sponsor construction of a room, furnishings etc. There was a suggestion to make a miniature set up at LES to give the people idea about the new building. It is also decided to make a brochure with packages of sponsorship. The committee listed some of the names of alumni who could help us and are working outside India also. It is added as attachment (Word File).

The meeting was concluded at 7 p.m. with vote of thanks by Dr. Saji P Jacob.

Presentation of minutes and approval of the same

The meeting began with a silent prayer at 5.10 pm. Dr. Francina P X read the minutes of previous meeting and it was passed unanimously. Later, there was a short discussion on the meeting with Prof. TSN Pillai's family. Dr. Saji said that the family has agreed for an endowment lecture. We proposed a scholarship, or cash award since it is just 1 lakh. They prefer endowment lecture. But the expenses for conducting it off line are more. The normal interest for fixed deposit is from Rs. 3000-4000/ year, which is not sufficient. We need minimum 10000/ for conducting the programme offline. We have requested for some more money in case of preference for endowment lecture and they have agreed to that. Regarding other details, we shall decide in the managing and general body meeting.

Presidential address: in his presidential address, Mr. P N Sreekumar said that we are reaching our term and we need to revisit partnership of alumni with the college. The alumni

have a great role to play and we need to redefine the role of alumni in practical context than theoretical. We need a single umbrella, under which we need to function. The alumni should be responsible. All the alumni members, should come under one umbrella. There are spindle groups which are active. Though there is a little bit of lack of coordination among the members, all our members are very active, which is a very great thing about our alumni. We should be able to complete all the tasks we have taken. Alumni association and its activities are ongoing process.

After the presidential address, Dr. Saji P Jacob reviewed about the previous meeting and also described shortly about Dr. Jose Murickan Endowment Lecture Series 2 and the Foundation Stone ceremony of Administrative Block. He said about the oversight that has happened in Jose Murican memorial lecture preparation. He said that usually we involve alumni in almost all activities. If we evaluate, we can see that alumni was included in all the major activities. There was a concern raised by Prof. Mathew about the absence of alumni representative at the stage during the foundation stone laying ceremony. Dr. Saji said that we had to impose certain restrictions due to Covid. We respect all the concerns raised by the alumni. There was fairly good representation of the alumni in the function. Fr. Sabu said that he had personally invited many alumni as per the list provided (former office bearers). It is also noted that there we prepare a time schedule for endowment lecture series and it is taken as an agenda in the managing committee meetings. Dr. Saji also informed that Mr. Antony and team came with a proposal of lecture by Dr. Manali Desai, Cambridge University as keynote speaker for Mariamma memorial lecture. They propose at the end of November 2020.

Website

Mr. Balagopal informed that there is close monitoring and follow up with website developers. The team is doing a great work under the leadership of Dr. Sunil. He said that 60 to 70 percentage of the work has completed. The team have created an E-mail group for the discussion on the status, progress of the work etc. It is found that since we are reaching final stages of the website work, it is more time consuming and there is delay in completion of tasks. It is suggested that we could set a deadline of one month, so that we would able to complete the work and launch the full-fledged website on 26th January 2020 on alumni gathering day.

Registration

Mr. Ram Mahesh informed about that the accounts are traced and prepared. We will be able to get the renewal of registration at the earliest. Dr. Prakash and Mr. Ram Mahesh will do the follow up work and get the registration at the earliest.

Administrative block

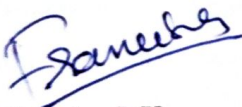

There was discussion about the budget of the building and the tentative plan for this. Fr. Sunny Kunnapillil SJ said that the estimated cost was 6 crores (2016-17). Now it will come around 8 crore. The Jesuit province and Loyola Extension services have contributed Rs. 1

crore each and Loyola school has contributed 2 crores. The management is in the process of seeking buyers for 27 cents of land near to Loyola Ladies hostel to raise fund. Dr. Saji opined that we need to raise 2 crores minimum including furniture and other accessories.

Mr. Balagopal opined that a collective effort is missing from our part. There are a lot of people who want to contribute to college. There should be a system in which the communications are to be reached. We are not using 5% of the power and we need to put something as system which is fool proof. He also said that there was suggestion from alumni about the financial help for website. But we didn't follow up. We have to take a pro-active step to contact the persons whom we know. He also said that we should identify the influential persons, through whom we can channelize the corporate donations. We need to plan modalities for getting contributions. There was opinion on the need to plan for this including expertise from management and alumni for this. There was also suggestions to make sub committees, designing brochure etc.

Prof. George Mathew opined that we contribute reserve fund to the building construction. But Dr. Saji opined that this amount is being collected from many years and that deposit is the major source of income (Fixed deposit). There was a suggestion to see what we can generate and in the case of emergency only we will put a proposal in the general body to transfer some fund from this.

It is decided that we conduct a separate meeting for planning the resource mobilization on 7th November 2020 at 7 p.m. Dr. Saji P Jacob proposed vote of thanks and the meeting came to an end by 7.30 pm.

The meeting started at 7 p.m.

Regarding the minutes of previous minutes, Prof. George Mathew pointed out that there was lack of mention in the report about his opinion that we contribute reserve fund to the building construction. The FD is around 3 lakhs. We have around Rs. 25000/- as a reserve fund. The subscription amount of students is just a minimal amount & alumni day registration are the major source of income, which is just enough to spend for the alumni day. Dr. Saji opined that this amount is being collected from many years and that deposit is the major source of income (Fixed deposit). There was a suggestion to see what we can generate and in the case of emergency only we will put a proposal in the general body to transfer some fund from this.

Another proposal was about possibilities of Foreign contribution. Prof. Mathew opined that we can also get some funds from foreign countries, if we have FCRA. There was discussion about the intricacies involved in FCRA. Fr. Sunny said that he will consult the auditor and inform. Prof. Mathew said that he can generate some funds through his daughter and some relatives from abroad.

IT was also informed about the 80G provision and Prof. Mathew said that many can contribute if there is income tax exemption for the donation. Dr. Saji also informed about

discussion with Dr. Gita Paul and team about some proposal. Fr. Sunny informed that we have 80 G, which can be availed from Jesuit Educational Development Agency.

CSR was another suggestion. Mr. Balagopal suggested that we will try from corporates. He tried from TCS. He contacted the general manager for this, and will find out the possibilities. Prof. Mathew said that there are more than 60 corporates in Techno park. Mr. Abhilash (MSW), is the contact person. Dr. Prakash said that he will contact with Mr. Abhilash. Balu said that Fr. Sunny also should be there. Mr. Baby Prabahakar also shared his experience of working with CSR project of HLL and he said most of the CSR need outcome based project as there are changes in CSR after 2013. We will find out the provisions and make a preliminary enquiry.

Another suggestions was getting the services of alumni who can render faculty services - finding out the best resource persons and finding out alumni who are willing to contribute to alumni by giving their expertise in training in corporates and departments like Management development pgm., MDP, leadership etc. We need to define certain areas like programs for Teachers - CBSE, ICSE schools, etc.

Another suggestion was by Mr. Balagopal was to get in touch with LOBA. But the manager said that the school is planning certain extensions, so we cannot expect from them.

Another proposal by Dr. Saji was that we start our donation drive with one month salary to one day salary. Though he suggested this to managing committee, there was no decision regarding this.

Another suggestion by Mr. Ram Mahesh, was to find out the possibility for MLA Fund, MP Funds etc. There were other suggestions like

1. Stage shows - at a later period ... we should put a time frame as the work is progressing...
2. We employ a person for 6 months to coordinate this. - Someone who can support and talk sensibly with alumni. For Liasoning, we need a senior influential person. Prof. Mathew requested the management for allotting a room for functioning the Alumni association and coordinating the activities. Fr. Sunny agreed the proposal and said that he will allot room at any time. The committee has expressed gratitude to Fr. Sunny during the meeting. Fr. Sabu informed that there is a provision a room for alumni in the new building which was decided much earlier.
3. Contact at batch wise and ask them to contribute as a batch
4. There should be separate package for jounior batche
5. Encouraging geographically alumni chapters
6. Another suggestion was to update the data base at Individual level. For that following suggestions were proposed

This was followed by selection of sub- committees. The details are given below:

Brochure & List of Alumni – Mr. Balagopal, Dr. Francina & Brilliant (different packages should be included with a three-dimensional model of the building). Fr. Sabu will contact the architecture and give the model.

Contacting the alumni:

Foreign contributions: Prof. Mathew and Mr. Santhoshkumar

Comment on Restoration of the Alumni Office: There was discussion on the restoration of the Alumni office. Fr. Sunny clarified that there was an allotted space for the Alumni Association before but after beginning the M. Sc Counselling Psychology course, the management was compelled to take up this space as a classroom due to space restrictions in the campus. Dr. Saji suggested that for the current emergency, the alumni activities could utilize a room in the space above the college canteen, along with a

part of another department, which will start functioning in that building from January. This was planned as per the interest expressed by the Management including the rector, to accommodate the newly established department and retain it with the main building and systems. In reply to the President's statement that visibility of the alumni is important, Dr. Saji and Fr. Sunny assured that the new block will have a dedicated space labelled for the Alumni Association.

Presidential address: We are approaching the end of the term and we need systems in place. Incumbency needs a permanency with a formal structure responsible for each event. Whoever comes and goes, we should ensure continuity and visibility for the activities of the Alumni Association and maintain. For example he mentioned the confusion about Dr. Mariamma Memorial fund. We need to ensure receipts, accounting, the persons in charge, etc. As evident from contemporary scenario, the Association also requires to have a fund of its own for survival and infrastructure to keep records and

The event is scheduled via the zoom platform, he informed and as the zoom room is preferably for the two batches of students of the college, the live link will be published on facebook for more interested participants.
- University rank lists of MA Sociology (in competition with other colleges under KU) and M. Sc. Counselling Psychology (zero competition) were published on 16th Dec 2020 and the 1st, 2nd and 3rd ranks have been secured by students of Loyola.
- The Department of MSW in Disaster Management is beginning function from Jan 1, 2021. A very senior faculty is appointed by the college, amidst all the constraints, being a very challenging course. The strength is 20 and there are applications of around 75 from different parts of the country like Delhi. - Dr. Mariamma endowment fund as proceeded by Mr. Anthony Thomas, Rs. 60,000/- has been received into the newly opened account today (17/12/2020) and therefore Rs. 1,00,000/- is credited in total.

- The website work is progressing in vigour and will require additional time to be completed. The management has pressed with the team to help get it ready for inauguration, latest by 1st January 2021 or 26th January 2021 before the Alumni General Body meeting. Quite a lot of work is happening in the background.

(e) Brochure

- The Elevation design for the new administrative block was acquired from the engineer recently, but following certain disagreements on the viability of the design, it has been sent back for rework and should be ready in the coming week.

(a) Progress on the website work - points shared by Mr Balagopal:-

Core website

- i) Admission section: This is an ongoing process and is doing it depending on the situation. Lastly when a new department came we did a separate admission portal.
- ii) Journal: We have uploaded it as based on the urgency. Some corrections are being done as per the opinion from the journal team.
- iii) Publication: Not uploaded till, 80% of requirements are complete. Some designs are pending. We can upload by this week.
- iv) LES: Working in initial stage only, documentation completed and developers are working in backend / logical operations. It can be completed in a week.
- v) Library: Need to integrate the local library management system with our website.

The website is progressing as best as possible. A few more areas like the online journal, LES, Library, etc needed to be completed. The committee acknowledged that the team is extremely cooperative and responsive through their limitations. There was a suggestion from the president that the Managing committee have a review of the website. Mr. Ram Mahesh asked whether there was any contribution from alumni association to the website. Though there was an agreement to bear the cost of alumni site, Dr. Saji said that the management is ready to bear the cost in the current situation.

b. Renewal of Registration - Mr Ram Mahesh

All the documents have been submitted. A few more documents to be submitted, that have been shared with the Secretary for the signature. Will submit the full documents by Monday (21/12/2020). We need to pay the fine that is due for payment after the Registrar office becomes fully functional. The office has deputed many officials for election related duty following the local body elections. The Annual reports from 2013 were required for the process. Mr. Ram Mahesh has taken effort in preparing reports of almost 12 years and has submitted them duly signed by the current President. Rs. 500/ year minimum is required to be paid, which amounts to Rs. 10000/- as a onetime settlement. The importance of maintaining and preserving Office bearers' details, Income and Expenditure details and Annual reports of the Association was emphasized on by Mr. Ram Mahesh from his experience in the matter.

(c) Restoration of Alumni office and infrastructure

Mr Ram Mahesh enquired of the previous facility for the Alumni Association. The room that was before labelled as Alumni Room and Research scholars' space during the 2013 NAAC visit had to be occupied by the second batch of the Counselling Psychology department in their admission after 2013, explained Dr Saji P Jacob(principal). This necessity would be taken care of, stated Dr Saji P Jacob, quoting the assurance provided at the beginning of the meeting; with the new building coming in place. Till then, for the functions of the Alumni, the space above the college canteen can be utilised, he reminded.

(d) Appointment of an assistant (intern) to assist Secretary

The proposal stands in question so long as the restoration of infrastructure for Alumni activities and allocation of a fund for the payment of such a position is a matter of concern. Dr. Mathew George enquired about the suggestion of change in the Secretary role from Dr. Francina. Dr. Saji P Jacob clarified that it was only a proposal within the management in sight of rearrangements in roles of faculty members and is not effective yet. Dr. Anitha of the Personnel Management department is the next in seniority in the faculty members who are also alumni, apart from Dr. Prakash Pillai who is already Treasurer in the Managing Committee and then Dr. Sonny Jose who is unable to take over any more duties.

Mr. Ram Mahesh has suggested that the *by-law need to be amended* as prevailing in different associations to allow other more senior members to hold positions like of the Secretary, etc. so that they would have more convenience and be able to utilize their acquaintance with the alumni members. Ms. Brilliant Maria shared agreement to the proposal. Maybe two or more internal members could become Executive members to share internal dynamics and carry on.

(4) Alumni day on Jan 26

The Managing Committee could meet another day to discuss the program, compile reports and prepare accounts for the General Body Meeting; the committee consented.

(5) Plans for Fund-raising

Mr. Baby Prabhakaran kept forward a proposal to create a long term drive to mobilise Alumni members. Also reminded the proposal to offer different packages of contribution in the brochure to motivate Alumni to make contributions towards the building of the new block.

(6) TSN Pillai Memorial and Gopalakrishnan Nair Endowment

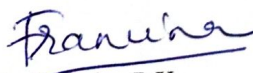

In response to the enquiry placed by Dr. Mathew George about a fund contributed by the family of Dr. Gopalakrishnan Nair, following the professor's retirement, the Principal has informed that the fund transferred in the name of Dr. Gopalakrishnan Nair is rightfully being utilised for a Scholarship namely Gopalakrishnan Nair Memorial Scholarship. Mr. Ram Mahesh has clarified that the fund was transferred only during the last four or five years and not immediately following his retirement. He has this information from Prof. Nairs' youngest daughter, who was Mr. Ram's classmate.

(7) Opening Global chapters for the Loyola Alumni.

Loyolites in different parts of the world, for example in the UK, Canada, Dubai etc gather informally very often. Mr. Baby Prabhakar has opined to get in touch with these groups and to mobilise them as a long term drive to incorporate them into the registered body of the Alumni for collective benefit into the future. Mr Ram Mahesh was suggested to be the right person to get in touch with the mentioned alumni. Dr. Mathew George suggested his information about Alumni member Mr. Dominic Mathew, who is working in Jesuit Provincial House, who had gathered multiple groups of the Loyolite alumni in his travels through Ethiopia, etc. in different places and mobilised funds through them for various social work activities. He opined that the Fr. Vice-Principal or Rector could easily get in touch with him to enquire more and seek his help in pointing out Alumni members.

Proposal for Facilitation of GC Gopala Pillai

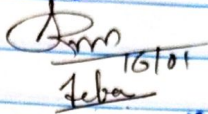

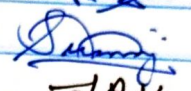

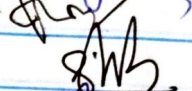

Mr. Ram Mahesh reminded the committee of the proposal to facilitate Alumnus Dr. GC Gopala Pillai who recently took charge as the CEO of Kottakkal Arya Vaidyasala, formerly the Director of FACT and MD-founder of KINFRA. The Committee has happily agreed the proposal. The president has consented to contact him and enquire his availability for a part-online and part-in-person event. The Director of the MC- College Principal Dr. Saji proposed vote of thanks to all the members present and for their proactivity amid all the constraints, also assuring the commitment of the management and staff at college for the Alumni Association. The Meeting wound up in reasonable time by 06:45pm after the members were welcomed by and congratulated Mr. Baby Prabhakar to his new home and wished each other Christmas greetings.
